

DATA FOR PROGRESS

From September 20 to 21, 2023, Data for Progress conducted a survey of 1,229 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,229 unless otherwise specified.

[3] The United Auto Workers (UAW) union went on strike against the Big Three automakers — General Motors, Ford, and Stellantis (the parent company of Chrysler and Jeep).

Union leaders are asking for a 36 percent wage increase over four years and for their pay to rise automatically with inflation in the future. The demands also include a 32-hour workweek, defined-benefit pensions for all workers instead of 401(k) accounts, and company-financed health care in retirement.
