

From November 30 to December 8, 2023, Data for Progress conducted a survey of 509 likely voters in the District of Columbia using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ±4 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=509 unless otherwise specified.

[1] In the past year, has your household experienced **economic hardships** with any of the following?

— Affording rent or mortgage payments

Response	Topline	Democrat	Independent / Third party	Female	Male	Under 45	45+	No College	College	Black or African American	White
Yes, my household experienced economic hardships with this in the past year	26	25	30	31	19	22	27	37	17	42	13
