

# DATA FOR **PROGRESS**

From January 4 to 6, 2024, Data for Progress conducted a survey of 1,223 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is  $\pm 3$  percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,223 unless otherwise specified.

**[1]** Under current U.S. law, U.S. hospitals in every state are required to provide an emergency abortion to a patient in cases when an abortion is "medically necessary." An abortion is determined to be medically necessary if it will prevent the patient from dying or from experiencing serious damage to their bodily functions.

Do you support or oppose this rule requiring all U.S. hospitals to provide abortions in cases when an abortion is medically necessary?

**[2]** Under current U.S. law, U.S. hospitals in every state are required to provide an emergency abortion to a patient in cases when an abortion is "medically necessary." An abortion is determined to be medically necessary if it will prevent the patient from dying or from experiencing serious damage to their bodily functions.

Recently, some state officials filed a lawsuit against this rule. They argue that in states that have fully banned abortion, hospitals should **not** be required to perform emergency, medically necessary abortions.

Which of the following comes closer to your view, even if neither is exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino
In all U.S. states, hospitals should be required to perform medically necessary abortions.	78	87	80	66	80	75	77	78	78	77	71	78	82
