

DATA FOR PROGRESS

From February 23 to March 2, 2024, Data for Progress conducted a survey of 1,120 likely voters in Alaska using SMS and web panel respondents. The sample was weighted to be representative of likely voters by gender, education, race, geography, and voting history. The survey was conducted in English. The margin of error is ± 3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,120 unless otherwise specified.

[13] The November 2024 election for U.S. House will be conducted using ranked-choice voting. This means that voters will be asked to rank up to 4 candidates, with candidates marked 1 being their first choice and candidates marked 4 being their last choice.

If these were the candidates for U.S. Representative from Alaska, please rank who you would vote for using the numbers 1 through 4, with 1 being your first choice and 4 being your last choice. You must rank at least one option. If you are not sure, please rank that as your first option.

Ranked-choice voting simulation for United States Representative from Alaska initially:
