

From February 2 to 5, 2024, Data for Progress, in collaboration with Fossil Free Media, conducted a survey of 1,451 U.S. likely voters nationally using web panel respondents, including an oversample of 18-29 year old likely voters. The overall sample was weighted to be representative of likely voters by age, gender, education, race, geography, and voting history. The sample was also weighted to account for oversample of 18-29 year-olds to ensure proportional representation of likely voters. The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,451 unless otherwise specified.

[1] Do you think Joe Biden should or should not prioritize placing stricter limits on climate pollution produced by fossil fuel companies in 2024?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	18 to 29	No College	College	Black or African American	White	Latino
He should prioritize this in 2024	50	80	44	24	52	48	62	44	63	45	59	61	47	63
He should not prioritize this in 2024	39	12	41	65	35	44	28	45	25	43	33	20	44	32
