

# DATA FOR PROGRESS

From March 8 to 14, 2024, Data for Progress conducted a survey of 873 LGBTQ+ adults nationally using web panel respondents. Respondents were defined as LGBTQ+ if they identified as LGBTQ+, transgender, a sexual orientation other than straight or heterosexual, or a gender identity other than male or female. The sample was weighted to be representative of the adult LGBTQ+ community by age, gender, education, and race using the U.S. Census Bureau's Household Pulse Survey (HPS) data on the national LGBTQ+ adult population. This sample is also weighted to account for an oversample of transgender adults to ensure proportional representation of the LGBTQ+ adult population.

The survey was conducted in English. The margin of error is ±3 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=873 unless otherwise specified.

**[1]** Do you have a favorable or unfavorable opinion of the following people or institutions?

## — Joe Biden
