

DATA FOR PROGRESS

From September 12 to 15, 2025, Data for Progress conducted a survey of 1,259 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ±3 percentage points. Results for subgroups of the sample are subject to increased margins of error. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,259 unless otherwise specified.

[1] Are America's problems more economic or more cultural?

Response	Topline	18 to 29	30 to 39	40 to 49	50 to 59	60 to 69	70+	Men, voted for Trump	Women, voted for Trump	Men, voted for Harris	Women, voted for Harris	Income under \$50k	Income between \$50k-\$100k	Income over \$100k	Young men (ages 18-39)	Young women (ages 18-39)
More economic	58	57	64	61	63	54	53	46	63	58	66	60	56	58	59	63
