

From October 29 to November 3, 2025, Data for Progress conducted a survey of 569 likely Democratic primary voters in Illinois' 9th Congressional District using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and geography. The survey was conducted in English. The margin of error associated with the sample size is ±4 percentage points. Results for subgroups of the sample are subject to increased margins of error. For more information please visit <https://dataforprogress.org/our-methodology>.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=569 unless otherwise specified.
