

DATA FOR PROGRESS

From February 28 to March 7, 2025, Data for Progress conducted a survey of 1,008 likely voters in Alaska using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled vote. The survey was conducted in English. The margin of error associated with the sample size is ±3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,008 unless otherwise specified.

[19] Some lawmakers are proposing to increase the amount of money public schools in Alaska receive per student each year from the state government, known as the Base Student Allocation (BSA).

Supporters say there should be a large increase in the BSA. Since 2011, school costs rose by nearly 40%, while the BSA increased by only 10%, resulting in massive class sizes, crippling staff shortages, school closures, and program eliminations.

Opponents say there should be a small or no increase to the BSA. A big increase would be fiscally irresponsible and unfocused education spending does not mean better results. The state should focus on policy changes and more targeted investments like teacher bonuses.

Which of the following statements describes how you feel about the Base Student Allocation?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	American Indian or Alaska Native	White	Anchorage	Kenai Peninsula	Matanuska-Susitna	Fairbanks North Star	Southeast	Rest of state	Parent of minor	Non-parent under 40	Non-parent over 40	Parent of adults only

[20] The Base Student Allocation (BSA), which determines state funding for Alaska's public schools, is currently \$5,960 per student.

Some lawmakers are proposing a **broad increase to the BSA**:

- Increase the BSA by \$1,000 next year
- Two additional increases of \$404 each in the following two years
- Additional future increases tied to inflation

Other lawmakers think the BSA should stay at its current level, and instead support **smaller, targeted funding tied to policy changes**:

- Increase funding to specific programs like homeschool support, career-technical education, teacher bonuses, and incentives based on student reading performance
- Allow the state board of education to authorize new charter schools without needing approval from the local school board
- Allow students to enroll in any school statewide

Which proposal comes closest to your preference, even if neither is exactly right?

[27] Some lawmakers are proposing to raise state revenue by changing Alaska's tax structure so Hilcorp, a major oil and gas producer, would pay state corporate income tax. Currently, privately owned companies like Hilcorp are exempt, while publicly owned oil companies, such as ConocoPhillips and ExxonMobil, do pay. Under this proposal, Hilcorp would pay over \$100 million more in state taxes per year.

Supporters say this would fund public safety and education and that it is unfair for Hilcorp to be exempt when competitors pay.

Opponents say this tax hike would lead Hilcorp to cut production and exploration, worsening Southcentral Alaska's natural gas shortage.

Do you support or oppose this proposal to make Hilcorp pay state corporate income tax in Alaska?

[29] Alaska has not offered a guaranteed pension for new public employees since 2006, replacing it with a 401(k)-like program.

Some lawmakers are proposing creating a new retirement program for state employees, an act that could bring new benefits to as many as 37,000 Alaskans.

Supporters say this would help address worker shortages, particularly among police, teachers, and state agencies, as Alaska is one of only two states without a pension system for new employees.

Opponents point out that past pension costs were underestimated, creating billions in unfunded liabilities. They argue the state cannot afford a new program without risking Permanent Fund dividends and the state budget.

Do you support or oppose this proposal?

[30] Some Alaska lawmakers are proposing to increase transparency and parental oversight of Alaskan children who are placed in psychiatric hospitals.

The proposal would require:

- That children can maintain communication with parents or legal guardians while institutionalized
- Unannounced state inspections of psychiatric hospitals twice every year
- Transparency about the use of seclusion and restraint, including forced injection of sedatives

Supporters say these protections are needed because children in psychiatric care are often hundreds of miles from their families and subjected to excessive isolation and restraint.

Opponents say that Alaska already has a shortage of psychiatric facilities, and these new requirements would only worsen access and increase costs, while making it harder to respond to emergency situations.

Do you support or oppose this proposal?

[32] Approximately one in five Alaskans live in rural areas, most of whom are Alaska Native. In these rural villages, fishing is critical not only for food — subsistence fishing constitutes about 60% of what rural Alaskans eat — but also essential to the cultural and spiritual wellbeing and survival of Alaska Native people.

The last few years, salmon runs in western Alaska have collapsed, a crisis that threatens both food security and cultural heritage for many rural villages.

Government officials agree that in rivers where salmon are scarce, fishing should be limited to subsistence use. But there is disagreement about whether subsistence fishing should be limited to rural residents, or open to all residents.

When salmon are scarce in a river, some officials have pushed to limit fishing to rural residents. Other officials have pushed to open fishing to all residents, not just rural residents, arguing that the Alaska state constitution requires opening subsistence fishing to all Alaskan residents.

Which of the following comes closest to your view, even if neither is exactly right?

[34] On **August 18th, 2026**, voters in Alaska will decide whether to enact **Ballot Measure No. 1**, a proposed amendment to the Alaska Constitution. If passed, the amendment would go into effect 90 days after certification.

Below is the text of the amendment that will appear on the ballot in the primary election in August:

An Act Limiting Contributions to Campaigns

"This act would change the amount of money that people and groups can give to state and local political campaigns. A court ruling in 2021 removed the limits on contributions by individuals. With this act, individuals could give \$2,000 to candidates and \$5,000 to political parties. Groups besides political parties could give \$4,000 to candidates and \$5,000 to other parties or groups. Individuals could also give \$4,000 to joint campaigns for governor and lieutenant governor, and groups could give \$8,000. These limits would increase with inflation every ten years beginning in 2031."

If the election were held today, would you vote **Yes** or **No** on this amendment?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	American Indian or Alaska Native	White	Anchorage	Kenai Peninsula	Matanuska-Susitna	Fairbanks North Star	Southeast	Rest of state	Parent of minor	Non-parent under 40	Non-parent over 40	Parent of adults only
I would vote Yes on this amendment	65	65	67	61	62	68	60	67	61	71	55	66	61	74	72	57	65	64	66	56	62	69
I would vote No on this amendment	16	18	15	15	15	16	11	18	18	12	20	16	15	10	10	23	19	19	14	10	21	17
I would skip voting on this amendment	7	8	7	6	8	6	13	4	6	9	8	6	7	4	7	10	9	4	7	14	6	5
Not sure	13	9	11	18	15	10	16	11	16	7	17	12	17	12	11	10	6	13	13	20	12	10
