m Data for **Progress**

From March 17 to 24, 2025, Data for Progress conducted a survey of 854 likely voters in New York City using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ±3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=854 unless otherwise specified.

[1] As you may know, New York City provides free pre-K and 3K programs for all children.

Would you support or oppose expanding these programs to include free child care for 2-year-olds in New York City?

Response	Topline	Democrat	Inde- pendent / Third party	Repub lican	Female	Male	Under 45	45+	No College	College	Asian	Black or African American	White	Latino	I am a parent/ guardian of at least one child under the age of 18
