

DATA FOR **PROGRESS**

From March 26 to 27, 2025, Data for Progress conducted a survey with 1,323 respondent interviews of U.S. registered voters nationally using web panel respondents. The sample is unweighted and represents raw responses only. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display $N < 50$ subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,323 unless otherwise specified.
