

DATA FOR **PROGRESS**

From May 2 to 3, 2025, Data for Progress conducted a survey of 1,202 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,202 unless otherwise specified.

[1] Who do you think would win in a fight between one gorilla and 100 adult men?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino
One gorilla	37	40	32	38	37	38	40	36	41	31	41	38	37
100 adult men	55	50	61	55	53	57	54	55	51	61	52	54	55
Don't know	8	10	6	7	10	6	6	9	8	7	8	8	8
Weighted N	1,202	453	294	455	641	561	402	800	774	428	128	858	160
