DATA FOR *PROGRESS*

GROUNDWORK COLLABORATIVE

From May 30 to June 1, 2025, Data for Progress conducted a survey of 1,232 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ±3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,232 unless otherwise specified.

[1] President Trump has asked Elon Musk to lead the Department of Government Efficiency (DOGE), which aims to restructure the federal government and reduce federal spending.

From what you know about their actions so far, do you believe DOGE will make the government work better for people like you?
