

From April 18 to 20, 2025, Data for Progress conducted a survey of 1,204 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

Based on data from HealthCare.gov and an analysis by Caring Across Generations, Data for Progress identified 18 states whose Medicaid programs do not contain "Medicaid" in their name: Arizona, California, Colorado, Connecticut, Hawaii, Kansas, Maine, Massachusetts, Minnesota, Missouri, New Jersey, Oklahoma, Oregon, Pennsylvania, South Carolina, Tennessee, Washington, and Wisconsin.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=472 unless otherwise specified.

[1] Do you have a favorable or unfavorable opinion of the following people or institutions?

— **[State Medicaid name]**

(This question was only asked to respondents who live in a state whose Medicaid program does not contain "Medicaid" in its name)

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	White	State Medicaid program does not contain "Medicaid" in its name
Very favorable	37	51	32	25	39	34	40	35	43	26	34	37
Somewhat favorable	34	33	37	34	39	29	40	31	30	41	36	34
Somewhat unfavorable	7	3	10	9	5	9	8	6	6	9	7	7
