

From June 4 to 8, 2025, Data for Progress conducted a survey of 916 likely voters in North Carolina using SMS and web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is  $\pm 3$  percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit [dataforprogress.org/our-methodology](https://dataforprogress.org/our-methodology).

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=916 unless otherwise specified.

**[1]** The Inflation Reduction Act (IRA) of 2022 invests over \$142 billion in direct funding to reduce greenhouse gas pollution and protect communities against the impacts of climate change, in addition to providing clean energy tax credits for households and businesses

Some lawmakers in Congress are considering **repealing** the entirety of the IRA of 2022.

When thinking about the potential repeal of the IRA, which of the following statements comes closest to your view, even if neither is exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White
The IRA should be repealed by Congress.	37	19	32	58	33	43	30	40	38	36	24	41
The IRA should be kept in place by Congress.	50	71	50	31	51	49	56	47	46	57	62	47
Don't know	13	10	18	11	16	8	14	12	16	6	14	12
Weighted N	916	290	294	332	500	416	280	636	584	332	184	663
