

DATA FOR **PROGRESS**

From May 30 to June 1, 2025, Data for Progress conducted a survey with 1,232 respondent interviews of U.S. registered voters nationally using web panel respondents. The sample is unweighted and represents raw responses only. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

N=1,232 unless otherwise specified. Some values may not add up to 100 due to rounding.
