

## DATA FOR **PROGRESS**

From June 27 to July 1, 2025, Data for Progress conducted a survey with 1,168 respondent interviews of U.S. registered voters nationally using web panel respondents. The sample is unweighted and represents raw responses only. The survey was conducted in English. The margin of error associated with the sample size is  $\pm 3$  percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit [dataforprogress.org/our-methodology](https://dataforprogress.org/our-methodology).

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display  $N < 50$  subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,168 unless otherwise specified.

**[1]** *[Open-ended question]* In the past week, what's the one specific news story you heard, saw, or read about the most?

*(Open-ended responses were manually categorized into the following bins)*

Response	Topline	Democrat	Inde- pendent / Third party	Repub lican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino
