

DATA FOR **PROGRESS**

From August 8 to 10, 2025, Data for Progress conducted a survey of 1,176 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

Persuadable voters are those who say that they "normally vote about equally for both major parties."

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,176 unless otherwise specified.

[1a] The following are actions that have been taken recently by the Trump administration. For each, say whether you support or oppose it.

— Freezing funding for USAID, a government agency providing humanitarian aid to foreign countries
