

# DATA FOR PROGRESS

From January 10 to 12, 2026, Data for Progress conducted a survey of 1,124 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is  $\pm 3$  percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit [dataforprogress.org/our-methodology](http://dataforprogress.org/our-methodology).

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,124 unless otherwise specified.

**[1]** Would you support or oppose your state government investing taxpayer dollars to create a system that provides free child care to all 2-year-olds and 3-year-olds?

Response	Topline	Democrat	Independent / Third party	Repub-lican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino
