

DATA FOR **PROGRESS**

From March 27 to 30, 2026, Data for Progress conducted a survey of 1,228 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,228 unless otherwise specified.

[1] The federal government has not agreed to a funding package for Immigration and Customs Enforcement (ICE).

Some lawmakers have said they will not vote to fund ICE unless new regulations and oversight are added to rein in ICE operations.

Which of the following approaches comes closest to your view, even if neither is exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino
Lawmakers should fund ICE now, even if there are no reforms to ICE operations	37	9	33	65	34	40	29	41	37	37	17	42	29
Lawmakers should not fund ICE until reforms are made to ICE operations	55	83	59	27	57	52	59	53	54	56	72	50	64
Don't know	8	8	9	9	9	8	12	7	9	7	11	8	7
Weighted N	1,228	470	250	508	653	575	400	828	791	437	133	875	152
