

DATA FOR PROGRESS

From March 13 to 15, 2026, Data for Progress conducted a survey of 1,259 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,259 unless otherwise specified.

[1] Which of the following do you think is the **main reason** the U.S. has been carrying out military strikes against Iran, even if none are exactly right?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Consumes "a great deal" / "a lot" of political news	Consumes "a moderate amount" of political news	Consumes "a little" / "none at all" of political news

DATA FOR PROGRESS

From January 31, 2025 to March 13, 2026, Data for Progress conducted 12 surveys of 14,502 U.S. likely voters nationally using web panel respondents. Each sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. Each survey was conducted in English. The margin of error associated with each sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,261 unless otherwise specified.

[1] In the last year, have you experienced a change in prices for the following goods? That is, are you paying more, about the same, or less?
