

# DATA FOR **PROGRESS**

From April 17 to 20, 2026, Data for Progress conducted a survey of 1,085 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is  $\pm 3$  percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit [dataforprogress.org/our-methodology](https://dataforprogress.org/our-methodology).

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,085 unless otherwise specified.

## [1] Has the war in Iran left the **United States** in a better position, a worse position, or neither?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino
Better position	22	8	12	42	16	28	18	24	23	20	13	23	18
Neither a better nor a worse position	24	17	29	31	26	22	26	24	25	23	25	26	21
Worse position	50	73	56	21	54	46	52	50	47	55	58	48	56

Weighted N	1,085	463	212	410	582	503	371	714	683	402	125	756	165

**[4]** As a result of the war in Iran, the U.S. is running low on munitions, which are military weapons, ammunition, and equipment. President Trump is expected to request billions of dollars in new funding from Congress to replace what has been expended.

Which of the following approaches would you prefer to address this?

Response	Topline	Democrat	Independent / Third party	Republican	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino
Congress should not approve any new funding for munitions to the U.S. military whatsoever	16	26	16	6	16	17	19	14	13	21	27	12	20
Congress should require the U.S. military to use its existing, unspent funds for munitions, instead of approving new funding	23	27	26	16	24	21	26	21	22	23	20	22	20
Congress should approve new funding for munitions to the U.S. military, but only if this is paired with new restrictions on the president's ability to wage wars without congressional approval	28	33	30	21	28	29	30	27	27	29	33	29	30
Congress should approve new funding for munitions to the U.S. military, without any conditions or restrictions	26	6	21	50	23	29	16	31	29	20	9	29	22
Don't know	8	8	7	7	10	5	9	7	9	6	11	8	8
Weighted N	1,085	463	212	410	582	503	371	714	683	402	125	756	165
