

From May 29 to 31, 2026, Data for Progress conducted a survey of 1,163 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ±3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=1,163 unless otherwise specified.

[3] How much have you seen, read, or heard about the Trump administration's "anti-weaponization fund," which sets aside \$1.8 billion in government funding to compensate individuals who claim to have been wrongly investigated or prosecuted by previous administrations?

[4] Recently, President Trump dropped his \$10 billion lawsuit against the Internal Revenue Service (IRS) over the leak of his tax returns, in exchange for the IRS creating an almost \$1.8 billion "Anti-Weaponization Fund" to compensate allies of President Trump who allege they were unfairly investigated by the federal government, including by the Biden administration.

Do you support or oppose the creation of an almost \$1.8 billion "Anti-Weaponization Fund" to compensate allies of President Trump who allege they were unfairly investigated by the federal government?
