

DATA FOR PROGRESS

From June 5 to 7, 2026, Data for Progress conducted a survey of 1,196 U.S. likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 3 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=600 unless otherwise specified.

[1] [Split A] Last year, lawmakers in Congress passed cuts to Medicaid that will eliminate home care services for hundreds of thousands of seniors and people with disabilities, forcing them to move into nursing homes to receive the care they need.

Do you support or oppose these cuts? (N=596)
