

From July 2 to 5, 2026, Data for Progress conducted a survey of 577 U.S. likely voters nationally who are Democrats or Independents who lean toward Democrats using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, geography, and recalled presidential vote. The survey was conducted in English. The margin of error associated with the sample size is ± 4 percentage points. Results for subgroups of the sample are subject to increased margins of error. Partisanship reflected in tabulations is based on self-identified party affiliation, not partisan registration. For more information please visit dataforprogress.org/our-methodology.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

N=577 unless otherwise specified.

[1] (Question asked only to Democrats and Democratic-leaning Independents)

Which of these statements best describes your view, even if neither is exactly right?

Response	Topline	Female	Male	Under 45	45+	No College	College	Black or African American	White	Latino	Democrat-leaning Independents	Democrat	Very liberal	Somewhat liberal	Moderate
Democratic Socialists of America (DSA) should be allowed in the Democratic Party	61	56	68	68	56	57	67	54	64	66	57	62	77	66	48
Democratic Socialists of America (DSA) should not be allowed in the Democratic Party	16	17	16	12	19	17	15	17	17	17	14	17	10	16	20
