From 9/30/2020 to 10/1/2020 Data for Progress conducted a survey of 1,146 likely voters nationally using web panel respondents. The sample was weighted to be representative of likely voters by age, gender, education, race, and voting history. The survey was conducted in English. The margin of error is +/- 2.9 percentage points.

NB: subgroups with a n-size less than 50 (<50) are not shown on these cross-tabs. We choose not to display N<50 subgroups because the sample is too small to have statistical significance. We did, however, take samples of these subgroups for representational and weighting purposes to accurately reflect the electorate makeup. Some values may not add up to 100 due to rounding.

1. If the 2020 presidential election was held tomorrow and the candidates for president were Republican Donald Trump and Democrat Joe Biden, who would you vote for?
